

## Notes to the Town

Spring is here! We are looking forward to green grass, emerging colorful flowers and new beginnings.

Recently we attended a joint meeting with the Village Board and accepted as of January 1, 2003 responsibility for the recreation department. No land ownership will be affected. Both boards will be working on the legal agreement to complete the transaction through our attorneys. We welcome providing recreation on a Town wide basis to our community. Recreation Director Kathy Bugajski will be located in the Village Hall for the upcoming summer season. January 1, 2003 we will look forward to her location transfer to 48 Main Street. Village and Town appointed Recreation Board members will continue to provide citizens input to the Recreation Director.

Town Code Officer, Gene Sinclair advises you that one unregistered vehicle per lot is acceptable under local ordinance. If you have more than one, you will be receiving a citation in the near future. Licensing extra vehicles stored outside will prevent that action. Additionally, outside stored tires are not allowed by ordinance. Take advantage of the roll-off dumpsters at the Transfer Station on Circular Hill Road Saturdays this month to aid in your spring cleaning projects. Code Officer can be reached at 768-6910 ext. 223

Roll-off dumpsters are available on Saturdays during the month of April from 9:00 AM through 3:00 PM. New fee schedule has been adopted by the Town Board to cover the expense of the dumpsters. Chairs \$5.00, Mattresses \$5.00, Couch \$10.00, Television \$5.00, Car Tire \$2.00, Truck Tires \$5.00, Tractor Tires \$10.00, Truckloads of construction debris will be evaluated on site and charged accordingly. We appreciate the cooperation of the community in providing this extra service.

Town Clerk Patty Canfield reports that Town and County taxes will be received at Town Hall until April 30, 2002. All unpaid taxes will be returned to the County Treasurer after that date. Patty is accepting reservation for Bunnell Park for this summer season. A fifty dollar fee is charged to reserve the park. The reservation fee is returned upon site inspection. All debris is carry in carry out at the park. Thanks to all who continue to cooperate with this policy. For those individuals unable to come into the Town Hall for Dump Cards or Dog Licenses, Patty Canfield can receive those transactions through the mail and return the same way. Town Clerk can be reached at 768-6910 ext. 229

Assessor Beth Hiscutt reports that Grievance Day for assessment roll is May 28, 2002 at Town Hall, 48 Main Street, LeRoy. Grievance Forms are available at Town Hall, you may request forms to be mailed to you also. Appointments are on a first come first served basis from 10 AM to Noon and 6 PM to 8 PM on that day. All those wishing to be heard will be accommodated on that day. To reach Assessor call 768-6910 ext. 221

Water News: Water District #6 (South Route 19) We are in discussions with Village Board to provide operation and maintenance service along with water supply to this

district. We have the final Rural Development Application submitted to that agency. Survey of the water District area has been completed. Once the award is announced we can authorize bidding for the project. We are on track with this project to date.

Consolidated Town of LeRoy Water District (formerly Water Districts 1-4) A detailed phase in of Monroe County Water is scheduled to begin late April, early May. This week on site meetings were held to show exact location of meter boxes and services affected by the change over. We continue to communicate with all interested parties for a easy transfer of the system. Those water customers waiting for a quarterly bill will be receiving a final water bill from the Town of LeRoy as the water lines are changed over to the new provider. Remember, no debt service is charges after January 1, 2002 as per our contractual agreement with Genesee County Water Agency. That debt relief was an intricate part of our agreement. Letters of change over will be forth coming as the supply line is readied for the change over.

Lehigh Valley Derailment Project (Limerock and Route 5) Project meetings assure us that time table and schedule is on track. This next two week period we look to the water line being placed in the ground on the haul road right of way. Connections are ready at Route 5. Watering up, sanitation inspections and taps will be performed in the next two weeks. We can look to old Water District #2 (East Main, Asbury and Linwood Roads) being supplied by MCWA within the next two months.

Dolomite Aggregate products are eager to get working on the haul road for this years use. Final layer of blacktop will be placed on Route 19 as weather permits. We will share that information with you as soon as we have it.

Extension #1 to Consolidated Town of LeRoy Water District (Selden, West Bergen and Randall Roads) Interest is being shown by funding agencies for this area. We continue to present this water district for grant opportunities. Extension #2 (Neid Road) We continue presenting this area as well for funding.

**Flushing Schedule** Water lines will be flushed on May 2, 2002 on East Main, Asbury and Linwood Roads. On May 4, 2002 North Street Road will be flushed. Caution is urged to be advised of the schedule. Do not do laundry during the flushing and allow hot water tank flushing at home one week after the flushing on your road occurs to allow for settling. West Bergen Road and Lake Road will be flushed by MCWA after the change over. Follow the instruction provided by them at that time.

Highway Facility Building is progressing nicely. Bi-weekly meetings are held with all the prime contractors. We are looking forward to the move this summer.

Plans are underway for the float in the Oatka Festival-Bicentennial Parade depicting Inventions of LeRoy. We are looking for talents individuals to help plan the float and assemble it. Call Shelley Stein if you are interested in helping 768-6910 ext. 231.

Meetings this month: Town Board April 25 and May 9 at 7:00 PM in the Courtroom, Planning Board Meeting April 16 at 7:30 PM in the Courtroom and Zoning Board of Appeals 7:00 PM April 23 in the Courtroom. Plan on joining us.

Shelley Stein, Supervisor 768-6910 ext. 231
